

## **Indonesia Needs Ya**

Joe Baker – Adam Glasser - Parker Edwards

**News is focused on the negative stuff  
People like to hear about things rough  
Last several years, we heard about Katrina  
The lack of aid, provided by FEMA  
When Haiti fell apart 2010  
Everyone found a way to provide for them  
The whole country was put in a giving mood  
Some sent clothes others sent food,  
And let's not forget the \$10 txts  
But then, Indonesia came next  
there was no news from NBC  
It was under wraps, a mystery**

### **Chorus:**

**1 2 skip a few  
488 (dead) not on the news  
71,000 evacuated  
Say hello to saturated  
Well if we are what we eat  
Let's eat a donator  
just say you're in, done, see ya later  
the fact is Indonesia needs ya,  
Put your hands up so we can see ya  
We want to put your ideas in motion  
About a state in the South Pacific Ocean  
They are the largest Muslim Nation  
86% of their population  
Has 90% literacy rate  
fourth most populated state  
Even after the recession came looming  
their economy continued booming  
like all countries, there are problems too  
Plethora of health issues, like the flu  
They struggle with poverty, nation wide  
Stabilize their democracy, on the side**

**Fair election for about 12 years  
Corruption and human rights are some people's fears**

**But the reason we came here today  
Cause there are a lot of things we have to say  
About the disasters that have rocked the state  
We know the UN has a lot on its plate  
At any time, their country could shake  
from the risk of an earthquake  
At any point, villagers may need to dash  
From the constant threat of volcanic ash  
The amount of rain is insane  
At the strike of any hurricane  
Not to mention a tsunami wave  
it's Indonesians we need to save**

**Chorus:**

**1 2 skip a few  
4,88 not on the news  
71,000 evacuated  
Say hello to saturated  
Well if we are what we eat  
Let's eat a donator  
just say you're in, done, see ya later  
the fact is Indonesia needs ya,  
Put your hands up so we can see ya  
The UN is working in Indonesia already  
Combating deforestation is steady  
Battling children's issues is key  
The efforts against HIV  
But we are asking for even more  
Because more disasters are in store  
Higher standards for building project  
And it seems to us like basic logic  
Better infrastructure in cities and towns  
UN members in the nation around  
When there is a natural disaster  
We ask you provide aid even faster  
Not asking for soldiers or guns  
Just people ready to help, and maybe some funds**

**There is one more thing we would just like to say  
Before any questions you want to ask  
We know the UN is up to the task  
We believe the people there really need ya  
So please consider helping Indonesia**

**Chorus:**

**1 2 skip a few  
488 not on the news  
71,000 evacuated  
Say hello to saturated  
Well if we are what we eat  
Let's eat a donator  
just say you're in, done, see ya later  
Well the fact is Indonesia needs ya,  
Put your hands up so we can see ya**
