Film screening will be followed
by discussion session with

Barbara Trent, director
David Kasper, writer/editor

Friday April 18, 2008
7:00 PM

Richard White Auditorium
Duke East Campus
113 Campus Drive
Durham NC 27708

*free and open
to the public*

The Panama Deception explores the untold story of the 1989 invasion of Panama, the events that led to it; the excessive force used; the enormity of the death and destruction and the devastating aftermath.

The Panama Deception uncovers the real reasons for this internationally condemned attack, presenting a view of the invasion which widely differed from that presented by the U.S. media.

The Panama Deception exposes how the U.S. government and the mainstream media suppressed information about this foreign policy disaster. Network newsclips and media critics contribute to a staggering analysis of media control and self-censorship used to deceive the American public - a film hauntingly relevant today.
